Cinderella Table Skirting Kit Instructions

1. Feed string into string pocket sewn in the fabric. We recommend tying a bulky knot at the ends to minimize the chances of the string being pulled out. Center the piece on the table and pin through the string and into the table cloth to fasten.

2. Gather the fabric evenly and begin pinning the string to the table cloth at regular intervals along the edge of the table. Then follow the picture instructions below and puddle at the bottom.
